

## **American Scientific Glassblower Society Canadian-Section-Canadienne**

Subject: June 2005 BOD Report of the ASGS Canadian Section,

The Canadian Section of ASGS held the 2005 spring meeting in Montreal at Université de Montréal on April 30<sup>th</sup>. About 25 members attended the meeting. There were many interesting demonstrations. (No date has been decided yet for the next meeting)

Darcey Doering presented the financial report. As of June /05 the Canadian Section has a balance of CDN\$2346.04 in its bank account.

After a vote, it was decided to begin drafting plans to host a symposium in Canada in 2007 or 2008. The Toronto/Niagara region was then chosen as the most likely location for a symposium. It is a beautiful area, with an availability of appropriate hotels and proximity of a large basin of glass industries. A Symposium working committee was then struck. The Chairs that were appointed were;

Symposium Chair: Mark Trent  
Exhibitor Chair: Michael Palme  
Technical Papers Chair : Georges Kopp  
Technical Posters Chair: Phillip Legge  
Technical Workshops: Ron Legge  
Artistic Chair : Cedric Ginard

A new slate of Section Officers was elected. Their two year term of office will end in May 2007. The new Canadian Section Officers are:

Director	:	Georges Kopp
Alt. Director		Cedric Ginard
Chairman		Mark Trent
Secretary		Michael Vandenhoff
Treasurer		Darcey Doering

Our gratitude goes to our faithful sponsors who help make those meetings a success.  
Dima Glass Inc., Pegasus Industrial Specialties Inc, Nortel Manufacturing Inc., Wilt Industries Inc.

Sincerely,

Georges Kopp  
Canadian Section Director
