

## SOUTHERN CALIFORNIA SECTION REPORT

To: President Mike Souza and the Bod

Updated report:

The southern California section has had 1 meeting since the symposium. The meeting was held at Pacific Artglass on Oct. 18 where we had a tour and demos including slumping and high pressure water cutting. We had a short business meeting and had lunch. We had about 20 people in attendance. Our next meeting will be some time after the first of the year and will be held at National Diamond Lab in LA.

I am back as director replacing Richard Bock who took the glassblowing position at UC Santa Barbara beginning Oct. 1st.

At the present time we are also looking at hotel sites to bring the symposium to southern California (Ka-E-for-nee-yah) per the Govenator

The condition of our section is ok considering we lost some jobs. In looking over our section roster we don't have any section members who are not national members.

What we need to do is check to see if any have let their membership laps. We have dues of \$10 but only collect from a portion of the membership that is within our section. We haven't figured how to fix this.

Jim Merritt  
Director
