Additional Comments (use additional sheet if necessary):

The Northeast Section has had some excellent meetings with good attendance. Our last meeting was held at Princeton University and was hosted by Mike Souza. The meeting began with a lecture and Physics demonstration by Dr. Omelan Stryker, explaining concepts of "precession, resonance and polarization" as fundamental properties used in techniques such as Medical MRI's. Later, the meeting moved to Mike Souza's new glass shop where he demonstrated resizing aluminosilicate tubing. Many of our officers and members worked together in successfully planning a great meeting.
