

THE AMERICAN SCIENTIFIC GLASSBLOWERS SOCIETY, CANADIAN SECTION CANADIENNE

October 24, 2004

Subject: October 2004 BOD Report of the ASGS Canadian Section,

The Canadian Section held its last meeting on October 23, 2004. The meeting was well attended with about 25 glassblowers in attendance. Our thanks go out our meeting host Pegasus Industrial Specialties Inc. We would also like to thank our sponsors, Dima Glass Inc., Lasalle Scientific Inc., Namdar Custom Glassblowing, Nortel Manufacturing Inc., Northstar Glassworks, Pegasus Industrial Specialties Inc., and Wilt Industries Inc. Our next meeting is tentatively scheduled for Spring 2005 in Montreal, Quebec. When the details are available for this meeting they will be posted on our website. Typically our section has held one or two meetings per year.

Our Section Officers were elected in May 2003 to their current positions for a two year term and as such will be in their current positions until May 2005. The officers are;

Director	Michael Palme
Alt. Director	Georges Kopp
Chair	Craig Nagami
Secretary	Michael Vandenhoff
Treasurer	Darcey Doering
Video	Brian Power

At our business meeting there was a discussion regarding the Canadian Section holding a future symposium. It was decided that I will contact Ron Bihler and seek some information regarding the planning process for symposiums. Once we have this information further discussion will take place at the section level. A presentation to the section members would then take place at our Spring 2005 Meeting.

There was also discussion regarding the Director Reimbursement for the fall ASGS BOD meeting. A motion regarding this will be presented at the November 2004 BOD meeting

Sincerely,

A handwritten signature in blue ink that reads "Michael Palme". The signature is written in a cursive style with a light blue background behind the text.

Michael Palme
Canadian Section Director
